About Us

Our Company

Founded in 1994, Petributes is a family-owned supplier providing innovative, creative and memorable products to the pet funeral sector, including veterinary groups and pet crematoria.

From the start, customer service and quality have been our driving ethos and as a result, we have strong working relationships with our trade customers, many of whom have been with us for decades.

As their businesses have evolved so has ours, and we have developed many of our products in partnership with our customers, responding to their needs and changing consumer demands. One example of our innovative approach is the Scatter Tube, invented by us and increasingly used by many pet crematoria and veterinary groups as their standard ashes return option.

Introducing Pulvis Art Urns

Unique Handcrafted Processes & Exceptional Skill

We are excited to be showcasing the work of an exceptional team of passionately committed designers, Pulvis, who bring their artistic skills to life in our new range of beautifully crafted urns. Using ancient arts of modelling, carving, etching, glazing and painting; the experts at Pulvis have created these highly stylised ceramic urns which complement our other products.

Suitable for the home or garden, the Pulvis urns are all made from ceramics and are available in a range of styles and colours.

Inner Coating® by Pulvis
All Pulvis urns come ready lined with their innovative Inner Coating®, a thin rubber-like protective layer which is applied to the inside of the urn to protect the ashes in the event of damage to the ceramic urn.

Cat Urn

Product Information

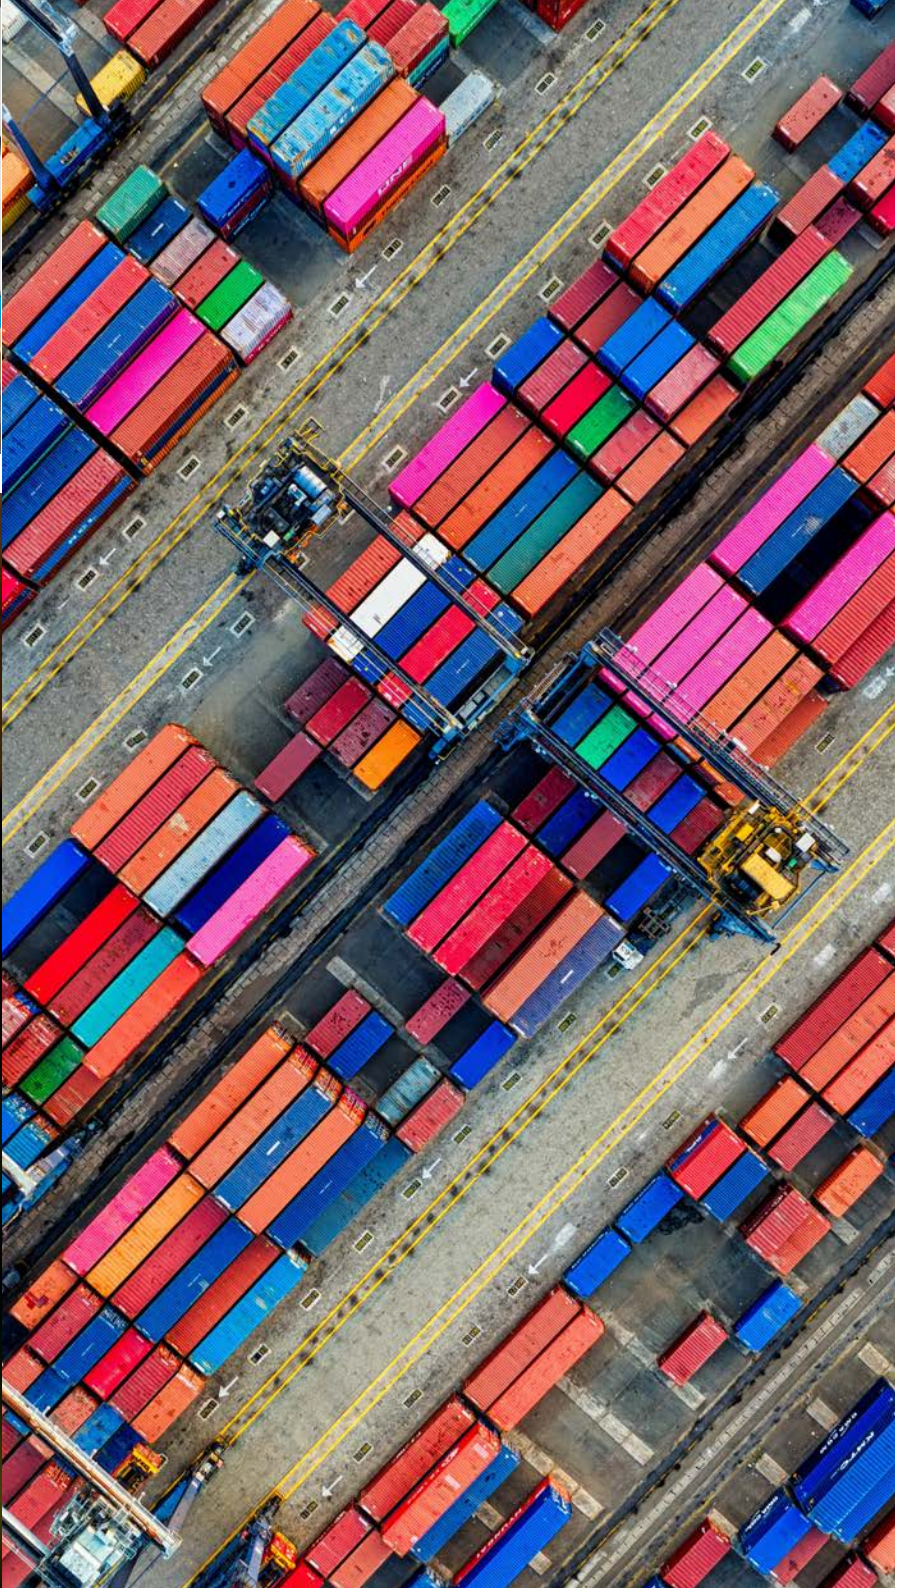

All of our products are designed in-house, before being manufactured in the UK, or if more appropriate, overseas. We work closely with our suppliers to source ethically produced, sustainable materials. This care and attention ensure we always provide quality finished products. We also offer a bespoke design-to-production service, and in-house personalisation including colour spraying and engraving.

Environmental Information

We are acutely aware of the environment and work hard to minimise our impact on it with clear and achievable ambitions to become impact neutral. Whilst we'd love to source and manufacture all of our products locally, the simple fact is many of the materials and even the skills don't exist in the UK to support this. Therefore, we have to source our products from a range of suppliers around the globe, which we understand brings its own issues in terms of transportation and carbon footprint.

Our environmental focus means we regularly review our products and procedures in order to make improvements. Examples of the way in which we operate sustainably include:

- Transporting our products in ways which minimise environmental impact
- Using packaging made from recycled materials wherever possible
- Minimising packaging where we can
- Insisting our suppliers source raw materials in a responsible and sustainable way
- Ensuring our products are made from natural biodegradable materials where possible
- Regularly visiting all manufacturers to inspect working standards and practices and offering support in production methods where necessary.

Shipping & Returns

“No Arguments” Return Policy

At Petributes we are passionate about giving excellent customer service. We strive to give our customers creative, good quality, value for money products, delivered in the very best condition. However, we recognise that there can be occasional mishaps and we have a straightforward “no arguments” return policy. If you are ever dissatisfied with the quality of any of our products on receipt, please let us know and we will dispatch a replacement to you immediately,* free of charge, or issue a credit note.

*Subject to stock availability.

In the event of late delivery, damaged, or missing goods, we ask that you let us know, if possible, within one working day. This helps us if we need to make a claim against the courier. If an insurance inspection is required, we will arrange for the collection of damaged goods.

Carriage Charges for Trade Customers

All orders above an agreed value are shipped free of charge within the mainland UK*. A standard packing & carriage charge will be made on orders with a value below this level - see our current price list for details. Any deliveries resulting from backorders will be shipped free of charge within the UK.

*Shipping to some areas of the UK will incur a surcharge.

Orders of any value shipped to UK Isles, Northern Ireland, Ireland and European destinations are chargeable. We use a variety of carriers and will make every effort to obtain the best available shipping quote for you. Alternatively, you may arrange for collection by your own preferred courier (please call us for more information).
